February 20, 2017

Dear Southmoreland Parent/Guardian:

The Administration, School Board and Faculty of the Southmoreland School District are committed to the continued academic development and achievement of every student. To assist students on the Biology Keystone Exam, programs and procedures have been implemented to provide remediation and additional preparation for the Biology Keystone Exam which will be administered over two days in May. Since it is our intent to enable all students to pass their required Keystone Exams, all students have the opportunity to participate in additional remedial instruction for the Biology Keystone Exam.

The optional Biology Keystone Review sessions will be held after school from 2:30 to 4:30 pm on Wednesday afternoons beginning March 1, 2017. **Your child will need transportation home from the school on those afternoons.** Please make any necessary arrangements for transportation. Additionally, a link to Keystone Biology Review videos has been placed on the Southmoreland High School website. You or your child can access the link by selecting the Southmoreland High School website from the District Home Page and by clicking on the "BIOLOGY KEYSTONE Resources" choice, or directly at

<http://southmoreland.schoolwires.com/Page/1097>

In addition to the "BIOLOGY KEYSTONE Resources" page, all current biology students are enrolled at www.studyisland.com.

If you have any questions or concerns about the program, or would like additional information, please contact Jason Zalewski by phone (724-887-2010) or via email: zalewskij@southmoreland.net.

Thank you for your continued support and understanding.

Sincerely,

The Southmoreland Science Department

Mr. Busato
