"High Quality Learning for All"

December 12, 2021

On Friday, December 10, 2021, the Pennsylvania Supreme Court overturned the Acting Secretary of Health's school masking mandate, effective immediately. Southmoreland School District's Health and Safety Plan indicates that once the masking order is lifted, the parent shall determine if the child wears a mask while attending school.

The requirement remains in effect for all students and bus drivers to wear masks when on school buses as the federal directive remains in effect.

The District's Health and Safety Plan is posted on the District's website.

Respectfully,

Vincent Mascia

Vincent Mascia,
Superintendent of Schools
